

Flight Preparation Guide

What to Expect on Flight Day

Our goal is to make your drone project as smooth and stress-free as possible. Here's what you can expect before and during your scheduled flight.

Before We Arrive

Confirm Site Access

Ensure we have the necessary access to the property and any gate codes, parking instructions, or required escorts.

Share Important Information

Let us know about any site hazards, restricted areas, active construction, or special safety requirements before the flight.

During the Flight

Safe & Professional Operations

Our FAA Part 107 certified pilots conduct every mission safely, professionally, and in compliance with all applicable regulations.

Weather Matters

Flight schedules may be adjusted due to weather or other conditions that could impact safety or image quality. If needed, we'll work with you to reschedule as quickly as possible.

After the Flight

Processing Your Deliverables

Once the flight is complete, we'll process your images, video, or data and deliver your project within the agreed-upon timeframe.

Questions?

We're here to help. If you have any questions before your scheduled flight, don't hesitate to contact the ADMI team.
